The Swedish Prison and Probation Service announces a position as scientific advisor at the unit for research and evaluation

More information about the position is published at The Swedish Prison and Probation Service’s website.

Young Scientists Day at the Sahlgrenska Academy

The Council for Research wants to give credit to successful younger scientists at the Sahlgrenska Academy that have received their first grant in national/international competition.

All of the presenters have been awarded grants in national competition, and we also have the Swedish Fernström Prize Winner from Gothenburg as a speaker.

Come and listen to our talented young scientist that will present their winning concepts; how to write a successful grant application. It is an opportunity to meet talented young researchers and to learn more about their research.

The Programme for Young Scientists Day May 17.
Important information

Payment of travel expenses during the summer 2016

During this summer no travel expenses will be paid in August. The traveler must report his/her travel expenses no later than at the end of May/beginning of June for disbursement in June or July.

Travel policy

Anyone who travels on behalf of the University of Gothenburg has obligations and rights that the University must ensure.

The traveler shall choose the cheapest mode of transportation. The traveler shall also take into account the environmental aspects.

Travelers who need to travel in first class/business class on flights, must have a written agreement/motivation by the Head of Department/Assistant Head of Department.

Approval for traveling first class/business class on flights is rare and mainly due to health issues.

The University of Gothenburg’s website provides information on business travel (in Swedish).

Rules for representation

External representation is directed outwards and aims at initiating or developing relationships that are important for the University/Faculty/Institute. The number of participants from the University can only rarely exceed the number of external guests.

Internal representation is directed inward toward the University’s staff such as information meetings, parties for employees etc.

A brief summary of the representation rules can be found on the Institute’s website.

New contact information for the payroll administration at GU

From May 1st 2016 the “Statens Servicecenter” started to deliver services in payroll administration and administration of travel and expenses to the University of Gothenburg.

Wage officers is reached by the email-address loneenheten@gu.se

More information and contact details for “Statens Servicecenter” is available on the University website.

Newsletter

Our aim is to regularly publish a newsletter with internal information and news instead of sending several messages by email.
