Report on laboratory animals

A preliminary report on the future needs and location of the animal house at the University of Gothenburg is attached to this newsletter; "Investigation - animal house at the University of Gothenburg" (in Swedish).

Comments on the preliminary report shall be submitted to Carina Mallard, our Institute’s representative in the "working group" which has produced the report on the future needs and location of the animal house at the University of Gothenburg.

Call for applications

New places at the Amanuensis programme

Nine places are offered and the students will start in the beginning of January 2017. If you would like to present a suitable project/amanuensis place for medical students please email a project description and a study plan (max. 2 pages each) with contact details to karin.dejke@neuro.gu.se no later than September 23, 2016.

Further information about the application procedure to the Amanuensis programme can be found at the

Queen Silvia's Jubilee Fund

Scholarships to researchers and PhD-students for research on children and disability.

This year’s theme is; "Methods to prevent and treat physical and mental disabilities in children - with a particular focus on unaccompanied and asylum seeking children and young people".

Application deadline October 1, 2016.

Application to the Queen Silvia Jubilee Fund at the Royal Court website (in Swedish).
