Researcher position from the Swedish Heart-Lung Foundation

Congratulations to Maria E Johansson, docent at the Dept. of Physiology, who was awarded a 3-year long researcher position from the Swedish Heart-Lung Foundation to study the cholinergic anti-inflammatory pathway and its role in atherosclerosis and ischemia-reperfusion injury.

More information regarding Maria's research: Cholinergic anti-inflammatory pathway and its role in cardiovascular disease

Medical Education and Research (ALF) grant proposals

Information meetings will be held in Swedish, and on three occasions:

- March 7, 15:00-16:00, Mölndal auditorium, V-building, SU/Mölndal Hospital.
- March 13, at 15:00-16:00, Östra auditorium, Central Clinic, SU/Östra Hospital.
- March 15, 15:00-16:00, Sahlgrens auditorium, Blå stråket 5. SU/Sahlgrenska Hospital.

International Training School

Reactive gliosis - from mechanobiology and signal transduction to molecular targets and disease pathogenesis
Aspenäs Herrgård, Gothenburg, Sweden, 2-6 May 2017

Call for applications/nominations

Sahlgrenska Visiting Professorship
The Sahlgrenska academy pedagogical prize 2017
Opportunities to apply for funding for international activities
Erasmus travel grants - Next deadline 15 February 15, 2017
Seminars and lectures

9 February | SEMINAR
Tal- och språkstörning vid epilepsi hos barn, Professor Thierry Deonna >>>

22 February | WEDNESDAY’S ACADEMY
Margda Waern: Suicide among the elderly >>>

28 February | LUNCH SEMINAR (in Swedish)
Möjligheter och utmaningar med fortlöpande behandlingsutvärdering inom psykiatrisk öppenvård med Carl-Johan Uckelstam >>>

2 March | RESEARCH DAY
RESEARCH DAY 2017 >>>

5-6 April | SYMPOSIUM
"From Neuroscience to the Classroom", Swedish Collegium for Advanced Study (SCAS), Uppsala >>>

Wallin-symposium

Invitation to Wallin-symposium – 7th of April, 2017 >>>

Defence of doctoral theses

17 February 2017, 09:00
Marcus Ulleryd - The Role of the Autonomic Nervous System in Inflammation and Progression of Atherosclerosis

28 February 2017, 09:00
Meng Chen - From mice to men; astrocytes and neural progenitor cells in neural plasticity and regeneration

Course - NVivo

21-22 February - Kurs i NVivo i Göteborg, för Windows-användare.

23 February - Kurs i NVivo i Göteborg, för Mac-användare.
