PhD student position in Basic medicine, 4 positions

If you are interested in supervising a master thesis student from the pharmacy programme for 20 weeks in the fall of 2017, now is your chance! Please send a short project plan with a nice title, a somewhat more extensive project plan (approx. ½-1 page; optional) and your contact information, and it will be published on the GUL website, open for all 4th year pharmacy students.

Please send an e-mail to thomas.carlsson.2@gu.se or call Thomas Carlsson at 031-786 3132.

The Institute Day 2017

The Institute Day, on the 26th of January, started off with a welcome address by Head of Institute, Agneta Holmäng. Agneta emphasized that the year 2016 had been a year of intense activities and great achievements. She expressed her deepest thanks to all coworkers for their big achievements during the year.

The welcome address was followed by five interesting lectures, given by new professors at the institute; Professor Roger Adan, Professor Susanna Wallerstedt, Professor Kaisa Mannerkorpi, Professor Jan Lycke and Professor Tiina Rekand.

The Department of Physiology were hosting the evening, which started with a drink and entertainment, followed by dinner in Birgit Thilander.
