New By-election to the “Institutionsrådet” (IR)

Ann-Christine Reinhold, member of “IR”, is going to retire on the 31st of August. Therefore, a by-election will be conducted to find a successor. The election will be electronic and is anonymous.

On Monday August 28, all employees entitled to vote will receive an e-mail with a link to the election (SUNET Survey). The election will close on Monday September 11, 2017.

The electoral roll has been sent to the administrative coordinators of our five departments. The persons qualified to vote in the election are all employees within the faculty whose employment comprises at least 50% of a full time position and who are employed on a permanent basis or have an appointment comprising at least two years of continuous employment.

Three new visiting professors at the institute

In June 2017 the Vice-Chancellor decided to employ five new visiting professors at the Sahlgrenska Academy. Three of these professors will be employed at the Institute of Neuroscience and Physiology:

- Professor Roger Adan, UMC (University Medical Center) Utrecht, i Nederländerna
- Dame Frances M Ashcroft, University of Oxford
- Professor William Jagust, School of Public Health, University of California, Berkley

Travel grants

Travel grants for young researchers from Knut and Alice Wallenberg Foundation

Knut and Alice Wallenberg Foundation provides travel grants for young researchers. Young researchers in this context include university teachers / -researchers engaged in research in or alongside the university position, which can be regarded as a recruitment position for senior positions (i.e, professor, associate professor and equivalent) and also graduate students working on their thesis.

Last application date is Sept 15th 2017
